Planning and Development Act 2000 (Part XI) (as amended) Planning and Development Regulations, 2001(Part 8) (as amended) Part 8 Outdoor Concerts and Events at Tallaght Stadium Environmental Impact Assessment (EIA) Screening Determination

Pursuant to the requirements of the above, South Dublin County Council is proposing to provide an additional use for outdoor concerts and events at Tallaght Stadium, Whitestown Way, Tallaght, Dublin 24.

It is intended to place the plans and particulars for the development on public display in accordance with the requirements of the Planning and Development Act 2000 (as amended) and Planning and Development Regulations 2001, (as amended) - Part 8.

Having regard to EIA Directive 2011/92/EU as amended by Directive 2014/52/EU (the EIA Directive), the guidance contained in the Department of Housing Planning Community and Local Government's "Impact Assessment Guidance for Consent Authorities regarding Sub-Threshold Development" (2003); Screening of the development for Environmental Impact was carried out in November 2026 by Purser, 20 Harcourt Street, Dublin 2, D02H364, Ireland.

The Screening has been carried out in accordance with the EIA Directive and to Annex I, II and III of that Directive, which sets out requirements for mandatory and sub-threshold EIA. Having regard to the nature and scale of the proposed development which is below the thresholds set out in Class 10, Class 13 and Class 15 of Part 2 of Schedule 5, of the Planning and Development Regulations 2001, as amended, it is considered that the outdoor concert and events use at Tallaght Stadium does not constitute a "project" for the purposes of the EIA Directive.

The subsequent EIA Screening Report has assessed the proposed development and determined that the development does not have the potential to have significant effects on the environment and that it does not fall into any of the classes of projects set out in the Annexes to the EIA Directive, and that therefore an EIA Screening is not required.

For the reasons outlined above, it is considered that the additional use for outdoor concerts and events at Tallaght Stadium will not present a risk to the environment, either alone or in combination with other plans or projects. As such this screening exercise concludes that an Environmental Impact Assessment Report is not required for this project.

William Fane

Acting Senior Planner

ORDER: That South Dublin County Council as the Competent Authority having considered the EIA Screening Report prepared by Purser for South Dublin County Council, makes a determination that an Environmental

Impact Assessment Report will not be required to inform the Outdoor Concerts and Events at Tallaght Stadium Part 8 Project, either alone or in combination with other plans or projects.
