

Director:

Teresa Walsh

Senior Engineer:

Andrew O'Mullane

NOTES

1. This drawing is to be read in conjunction with all other relevant engineering drawings and specifications, any discrepancies, errors or omissions to be brought to the attention of the contracting authority.
2. The contracting authority must be informed by the contractor of any discrepancies prior to the commencement of works on site.
3. All boundaries and adjoining roads to be checked on site prior to commencement of works.
4. Do not scale from this drawing, any measurements to be confirmed on site, locations of existing services are indicative only, the contractor must liaise with each utility provider prior to the commencement of works and throughout the works.
5. Contractor to develop their temporary traffic management plan for the works in agreement with the requirements of the contracting authority.
6. setting out detail to be agreed with the contracting authority's engineer on site.
7. all road markings & signage to be in accordance with traffic signs manual (t.s.m.), produced by the department of transport 2019.
8. the location of all proposed traffic signs are indicative only, exact locations are to be confirmed on site in agreement with the contracting authority's engineer.
9. all signs to be installed on passive safe posts housed in retention socket system.
10. all traffic and school signs to be installed in such a way as to ensure a lateral clearance of 0.40m distance from the outside edge of the sign face to the edge of the kerb.
11. all traffic and school signs to be mounted on poles to ensure a minimum head clearance of 2.5m.
12. all road works including road markings and signs are to be reviewed and approved by the contracting authority prior to completion of works.
13. existing vegetation to be cut back to achieve required 'visibility' to existing and proposed signs.
