

DRAFT CYCLE SOUTH DUBLIN PROGRAMME

South Dublin County Council has prepared an ambitious ten-year programme to deliver a significantly improved and connected cycle network across South Dublin County.

This draft Cycle South Dublin programme sets the Council's vision for making South Dublin County one of Ireland's most cycle friendly counties by:

- Providing a comprehensive and connected cycle network
- Making cycling a more achievable mode of transport for all adults and children and
- Improving the cycling identity of the County.

The draft programme identifies four cycle priorities:

- **Existing** (on-going upgrades to the existing network)
- **Now** (projects to be delivered over the next four years)
- **Soon** (projects between years four to eight) and
- **Later** (projects between years eight and ten)

The draft programme has been prepared against the backdrop of the Council's commitments to Sustainable Travel; Climate Change; Building Stronger Local Economies and Improving Personal Health and Wellbeing.
