Observations:

I object to all the existing anti motorist agenda tactics been deployed and i object to all future anti motorist policies been deployed

Caibidil: Draft Clondalkin Local Planning Framework » Chapter 1: Introduction and Context

I object to all the existing anti motorist agenda tactics been deployed and i object to all future anti motorist policies been deployed

I object to narrowing of roads and road junctions making roundabout bigger so they are hard to get around, there is a clear anti motorist agenda at play in county councils to make driving your car as miserable as possible. Under the guise of "safety" and "environmental"

It's the motorist that pays for the roads via road tax. Not cyclists or E scooter users.

What the council done on the Bawnouge road from Lealand all the way up to Lindisfarne is an Engineering disgrace and a gross misuse of public funds to the point the road is barely passable, 100s of thousand were spent destroying a perfectly good road that nobody in the area had a problem with.
