Cycle routes

Caibidil: Draft Clondalkin Local Planning Framework » Chapter 5: Sustainable Movement

Cycle routes: P1 Segregated cycle infrastructure along Ninth Lock Road.

This is very welcome and necessary, however it is also needed to continue this throughout the length of the Ninth Lock Road (beyond the area in the plan), past the Nangor Road intersection and at least to the Grand Canal, but preferably all the way to the Fonthill Road. (there is already some cycle infrastructure near the Fonthill/Ninth Lock Road intersection)
