**Stádas:** Submitted

**Submission:** Zoning for District Heating

**Comhairliúchán:**

Draft South Dublin County Development Plan 2022 - 2028

---

## Litir Chumhdaigh

A Chara,

this is a short submission calling for the zoning of the Clonburris SDZ to be modified such that only district heating may be used for heating and hygiene hot water needs of the development.

Cllr Eoin Ó Broin

## Observations:

### Chapter 10: Energy

**Caibidil:** Volume 1: Written Statement » Chapter 10:  
Energy

Today I participated in a seminar promoting District Heating that was organised as part of Dublin Climate Action Week. The seminar was from Codema. The point was made that the way Denmark has such high penetration of District Heating is by having a type of zoning which only permits district heating i.e. heating via natural gas or biomass or electricity is not permitted. I thus decided to make a short submission to the SDCC CDP process calling for this type of zoning for the largest residential development that will occur in the county over next decade given the multiple well known benefits of district heating.
