

1 Site Section AA (Key)
Scale: 1:500

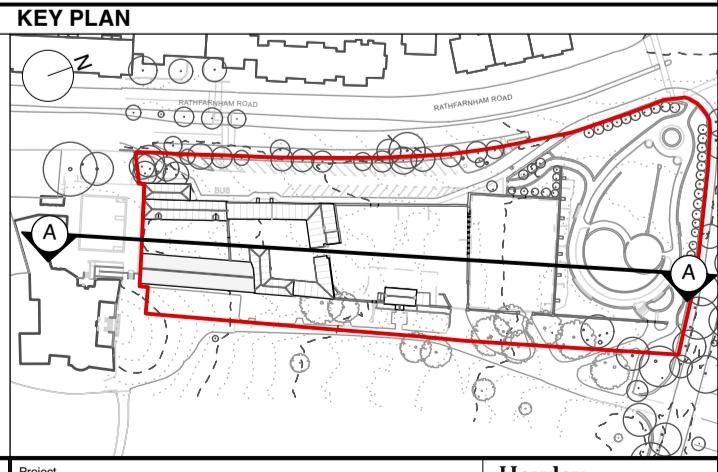

2 Site Section AA (Part A)
Scale: 1:200

3 Site Section AA (Part B)
Scale: 1:200

GENERAL NOTES:

1. Drawings to be read in conjunction with Architect's Design Report accompanying the application.
2. Drawings to be read in conjunction with Landscape Architect's Design Report, and other Engineers drawings and reports. Civil & Structural Engineers drawings and reports and all other surveys and reports to be read in conjunction with these drawings.
3. Method statements and temporary works proposals including sequencing to be submitted by contractor to Structural Engineer for acceptance prior to demolition work.
4. Note existing structures are uneven and existing levels may vary in relation to the levels shown.
5. Refer to the Development Plan and Strategic Impact Assessment for further information on the repair and conservation of historic fabric.
6. Refer to the Photographic Survey for further information on the condition of the building.
7. All existing historic masonry structures to be repaired, consolidation, raking out of joints, repointing and render repairs will be carried out using lime mortar and lime render as necessary.
8. Where repair works are noted best practice conservation techniques will be undertaken, to include grouting, pointing, mortaring and metal reinforcement (embodied or hidden) where required.
9. Additional repair works may be required following full inspection from scaffolding. Indicative repairs shown for planning purposes.
