To whom it may concern,

I, Loena Carroll, [REDACTED]

fully support retaining St. Edmundsbury as high amenity lands.

In compliance with the National Planning Framework, retaining these lands as high amenity serves to protect and preserve heritage.

- transition to climate resilient society
- protect biodiversity, climate and nature

Some years back we had an injured Sparrow Hawk in our garden. DSPCA came to the rescue and when the bird was ready to be released, DSPCA picked St. Edmundsbury as the release location. Along with Sparrowhawks, we encountered Kingfisher, Yellowhammer and countless other wildlife in St. Edmundsbury.

It's not just about retaining it for the people of Lucan, it's about more importantly the wildlife that calls St. Edmundsbury home.

Thank you for considering my submission
