29 JUL 2026

South Dublin County Council

Proposed Material Alterations to Proposed Variation No 2 to the South Dublin County Council Development Plan 2022-2028.

Submission by Rita Nolan

St Edmundsbury: Material Alteration No 6: I fully support the recent vote by Councillors to reject the proposed rezoning of St Edmundsbury from high amenity to residential.

In our present climate crisis, this area is of vital importance as part of the Liffey Valley Green Belt. This area is a place of wild nature and biodiversity, home to protected species of flora and fauna and a haven for the wellbeing of the community. A development at the top of this site would sever an important ecological corridor and damage the integrity this ancient landscape. The flora and fauna are irreplaceable once disturbed by building or footfall from the highly populated new town area. I am

relieved that thanks to the decision of our elected representatives this rezoning will not take place.

Finnstown Castle: Material Alteration No 3

I hope the decision of our elected councillors against rezoning of Finnstown Castle is respected. This area is surrounded with high density housing. The residents living in such a high density area deserve the breathing space that this unique historical area provides.

Adamstown SDZ West: Alteration Reference 2

I support the decision of our councillors to require Dart + West be up and running before further development commences. It is absolutely essential in the present time of climate crisis that housing and transport work in tandem so people are not forced to purchase cars to reach their employment.

This submission is made in the interests of proper planning, environmental stewardship, climate responsibility, the long-term wellbeing of residents of Lucan.
