

Dodder Greenway - Phase 6

Public Consultation

We are launching an online public consultation to give all citizens a chance to have their say in how safe active travel may be achieved in the area from Dodder Valley Park to Kilvere estate via Firhouse Road and Butterfield Avenue.

Why?

Now more than ever there is an increasing importance of making walking and cycling a realistic and integral part of how people journey around our city and county. Space for pedestrians and cyclists to move safely while separated from vehicular traffic is key to providing for active mobility.

Scheme Benefits

- Safer commuter and social cycling facilities
- Safer pedestrian environment
- Safe access to the Dodder Greenway, linking cyclists and pedestrians to our linear parks, Dublin's City Center and beyond
- Improved air quality and increased health benefits through safe active travel

FAQ

IS THIS A PLANNING APPLICATION?

Please note that this is not a planning application. We are presenting options to the public, indicating the emerging preferred route and wish to gather as much feedback as possible. Once we have gathered feedback, we hope to use that information to help inform a formal planning application later in 2022. During the planning phase a similar process with similar notifications will be conducted where the public can make submissions and have their say in relation to the preferred route.

INGRESS AND EGRESS FROM DRIVEWAYS

Although we are not settled on a detailed design, any subsequent design of the works will be required to accommodate safe ingress and egress to all driveways fronting the route.
